

# FUND OUR FUTURE

N E V A D A

“All students deserve appropriate resources to reach their full academic potential and graduate to be college and career ready.”

**What:** Fund Our Future Nevada is a coalition of community partners determined to ensure our public schools have sufficient funds to provide all the appropriate and necessary resources students need to succeed.

**Why:** Nevada ranks towards the bottom in the nation for funding K-12 education and was given a D- for its education funding by the Education Week QUALITY COUNTS REPORT. Per-pupil funding in Nevada has remained flat for the last ten years, when accounting for inflation, even while faced with rising costs, unfunded mandates and demands for increased student achievement.

**AN INVESTMENT IN OUR STUDENTS IS AN INVESTMENT IN OUR FUTURE. THE TIME IS NOW TO FUND OUR FUTURE, NEVADA.**

## Our Students Deserve:

- A new education funding formula that accounts for evolving demographic changes and that appropriately funds the needs of every Nevada student.
- Lawmakers who respect and reflect the will of taxpayers and voters by using new revenue sources, such as the Marijuana Tax and Room Tax, to increase public education funding rather than to fill budget holes in other areas.
- Increased funds that come with accountability, stability and resources to ensure a Return on the Investment in our students and their academic success.
